

Moses Ayiga Lebu

Software Engineer

"My career goal as a new software engineer is to gain practical experience and develop my skills in software development through hands-on projects, collaborative learning, and continuous professional development. I am dedicated to contributing to the development of innovative and efficient software solutions by leveraging my strong foundation in programming, problem-solving, and critical thinking. I want to work in a fast-paced, challenging environment where I can use my creativity, adaptability, and teamwork to deliver high-quality software that meets the needs of end users. Finally, my ambition is to become a competent and respected software engineer who has a significant impact in the field of technology and contributes to the success of the organization for which I work."

Kiswahili

Experience

○ **November 2020 - Currently**
Relate Counselling I Nairobi, Kenya

Web Developer

As a web developer at Relate Counseling Services since November 2020, my experience has been fulfilling and fast-paced. I have been responsible for developing and maintaining the organization's website, ensuring it is user-friendly and responsive. I have also collaborated with the marketing team to construct landing pages and optimize the website for search engines. Additionally, I have implemented new features and functionality to enhance the overall user experience, including online appointment scheduling and a secure client portal. It has been a rewarding experience to contribute to the mission of Relate Counseling Services and assist individuals seeking counseling services access the support they need through the website.

○ **April 2019 - September 2019**
Kazi Tu I Kibera Town center, Nairobi

Software Developer - Laravel PHP

In 2019, I worked as a contractor for Kazi Tu, an organization that focused on job matching for their web app development using Laravel. My work involved designing and implementing efficient algorithms for matching job seekers with job openings, as well as integrating the web app with Laravel's powerful features. It was an exhilarating experience, collaborating with a talented team of developers and delivering high-quality code on schedule. I was proud to contribute to Kazi Tu's mission of connecting job seekers with opportunities and assisting them in finding meaningful employment through their innovative web app.

○ **January 2018 - September 2018**
Emmobilis MIT I Sports RD Westlands, Nairobi

Trainee

As a trainee at Emmobilis Mobile Training Institute, my experience was exciting and enriching. I was immersed in an intensive training program that focused on Java , Linux and web systems. The instructors were providing hands-on training that helped gain practical skills in coding, debugging, and system management. The curriculum was well-structured, covering fundamental ideas and advanced skills. The learning environment fostered collaboration and team work. By the end of the training, I had acquired a solid foundation in Java and Linux, and was proficient in building web applications. I am appreciative for the opportunity to learn from Emmobilis Mobile Training Institute and I feel well-equipped to pursue a successful career in the tech industry.
